

I would strongly urge you to REJECT NAB Petition #04-160 and allow XM Satellite Radio to continue their traffic and weather channels, without any restriction. I have found the service to be most valuable to me as I navigate the different roads around the country. I've been alerted to dangerous conditions before other commercial radio stations could have possibly have done so, thus allowing emergency professionals to do their jobs and avoiding danger and delay. I've also found the weather to be most helpful and reliable. Thank you for your consideration in this matter. Feel free to contact me if I may be of any further assistance at (925) 798-0896 x15.

Sincerely,

Jeff Kasper
